

Permit # V2
SBL# 173-1-292

Criteria for AREA VARIANCE

Please complete the following questions in as much detail as possible.

PLEASE PRINT

Continue answers on other side if necessary.

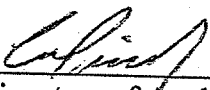

1. Is it possible to achieve your project by any other feasible means? Please explain.
No.
We can't do the addition to the front of our house due to the well in front yard.
And we can not go out the back side due to the septic tank
and system.

2. Will your project cause an undesirable change in the characteristic of the neighborhood or to nearby properties? Please explain.
No.
the addition is keeping the same architectural shape
as the current structure.

3. Is this a substantial (major) project? Please explain.
Not really.
the addition on our home is an extension of the current
structure by 16 feet with a full basement.

4. Will your project have any negative physical or environmental effects? Please explain.
NO. Addition same architectural style as
the house. Current grade & drainage will
be maintained.

5. Have you caused the problem that you are requesting to change? Please explain.
No. We did not build the house, septic &
well already in place.
It's a narrow, pre-existing lot!
